## SPECIAL FEATURES

### SILEX baking station

Baking carousel, roller-mounted lower frame, casing and lid made from highgrade stainless steel, 4-pairs of moulds made from heavy, handcasted iron (certified as unique), 4-temperature controls with separate thermostatic controls (all of the units can be shutt off from a central switch), 4-indicator lights. Accessories: Instructions, recipes, oil spray and steel brush.

### SILEX baking carousel

Casing and lid made from highest grade stainless steel, 4-pairs of moulds made from heavy, hand-cast iron (certified as unique), 4-temperature controls with separate thermostatic controls, all of the moulds can be shutt off from a central switch, 4-indicator lights. Accessories: Instructions, recipes, oil spray and steel brush. Bake up to 300 cones per hour, 140-160 Belgian waffles per hour, consistently and at highest speed with the SILEX waffle systems.

### Dispenser

6 litres dispenser made of high-grade steel as free-standing unit, amount of dough is individually adjustable.

### Moulds

You can choose which of the following types of moulds you want on your carousel: 4 x Brussels style (Type 521), 4 x Cone style (Type 531), 4 x American style (Type 501) or 4 x Heart shape (Type 521).
